DURING last month the interest-bearing National debt increased \$300. Yes; this is a Democratic Administration.

This is a Democratic "reform" Administration. Since it took hold of affairs eighteen National Banks have failed, making a loss to the people of some \$5,000,000. Let the "reform" proceed on Democratic lines.

THE advocates of Cobdenism, as opposed to the Protection of American industry, will not find much to support their free-trade proposals in the report recently of the annual meeting of the Iron and Steel Institute of Great Britain. The President of the Institute said:

The year 1892 had been one of the worst ever known in the iron and steel industries. Those industries were depressed and the outlook was gloomy. The production of pig iron had fallen off 700,000 tons and steel were in a worse condition. The total falling off in the exports of American iron and steel in 1892, as compared with 1891, amounted to \$7,000,000. The markets were not depressed, and there was not enough work for half the country's steel producing power.

That is to say, one-half the steel producing power of Great Britain has nothing to do, and is anxiously waiting for the repeal of the McKinley Law to throw open the markets of the United States to the products of Great Britain. That accomplished, the unemployed half of Britain's steel producers will find employment in producing steel for the United States at prices with which Americans could not compete at the present rate of wages.

One of the speakers at the British Iron and steel Institute declared that he saw "signs of betterment." He neglected to state in what direction he undoubtedly he meant on this side of the Atlantic, where GROVER CLEVELAND and his fellow Free-traders are engaged on their scheme for the betterment of the industry and the destruction of American industry.

"Leading Local Paper."  
The Mayville correspondent of THE Cincinnati Commercial says it has been reported that THE Cincinnati Tribune and MAYVILLE PUBLIC LEDGER have arranged to have both papers delivered to THE LEDGER's city subscribers at \$10 cents a month—just the price that is now charged for THE Tribune alone. The Ledger is a better, newer paper, and THE Tribune is likely if the report be true. It is said that THE Tribune is combining with the leading local paper all up and down the river. It remains to be seen how the regular five-cent dailies will meet this departure for business.

## MINE HORROR.

Twenty-six Burned to Death in a Mexican Mine.

They Were Overcome By the Heat, Smoke and Poisonous Gases.

The Survivors, Seeing Rescue Impossible, Directed Their Energy to Saving Property.

At 4 o'clock Saturday afternoon, shortly after the locomotive left, the mine was discovered to be on fire, and smoke and flames were seen issuing out of the air shafts. About one-half of the fifty miners were working near the main tunnel, and these made their way to the surface, from the heat and smoke and from the poisonous gases which spread like lightning to every portion of the mine. When it was seen that all efforts were useless to rescue the imprisoned miners, every energy was directed to saving the property from destruction.

A hand pump was placed in position on the Escondido river, pipes were laid into the mine as far as any work could be done and hose attached and water poured into the burning timbers. A portable engine was speedily obtained from Piedras Negras, and in three hours the fire was under control. There are twenty-four chambers in the mine, and the dead miners are supposed to be well to the front of the mine.

At 12 o'clock Sunday one body had been recovered from the seventh chamber, and shortly after another, fearful scorched and blackened, was brought to the surface. The tenth chamber has been reached, and men with ropes tied to their bodies, to effect the rescue, are fighting their way to where the bodies of their dead comrades are lying. Superintendent George Spence ventured in too far and was overcome by heat and smoke. He was propped up, but was rescued. It is believed that by Tuesday the mine will be cleared of the heat and smoke which at present it is impossible to cope with, and that all the bodies will be recovered. All the miners employed were Mexicans and most of them have left destitute families.

It is reported that all the parties responsible for the management of the mine have been placed under arrest pending an investigation of the cause of the disaster. But for the prompt action of the officials of the Mexican International and American Mining Company, the mine would have been destroyed, and none of the bodies would have been recovered. This is the first disaster in the history of old mining in Mexico.

**Quarrel Killed by a Coal Cart.**  
PHILADELPHIA, June 8.—Adam Confort, a convict, was run over and killed by a coal cart in the yard of the Eastern penitentiary. Confort was an inmate, and since his confinement of nearly three years for attempting to kill a man in Schuylkill county, he had spoken scarcely a dozen words to his fellows. As he was dying Confort seemed to regain his reason and talked more rationally than at any time since he had been incarcerated.

**A Singular Fatal Accident.**  
FARMINGTON, Ill., June 8.—Mrs. Harris, of Bensenville, died Sunday from injuries received by the explosion of an open can of paint in a closed room in her residence. She had been pointing the floor and left the can with part of the paint in it. A few hours after she entered the room and lighted a match to light the lamp when it is supposed the fumes from the paint ignited and caused the explosion.

**A Week on the Iron Mountain Road.**  
MEMPHIS, Tenn., June 8.—The report reached here Sunday night that the south-bound express on the St. Louis, Iron Mountain and Southern Railroad ran into an open switch near Poplar Bluff, Mo. Sunday, wrecked the passenger train. It is known that one person was fatally hurt and seven others more or less injured. Further particulars could not be learned.

**To Entertain Sailors.**  
THURSTON, N. J., June 8.—Active preparations are being made by the Catholics of this diocese for the entertainment of Mrs. Beckwith, who will arrive here next Saturday afternoon. Representatives of all the Catholic societies held a meeting here Sunday evening and made arrangements for the diocese's reception.

**Kaboor Wilhelm II. Sinks.**  
HROSA, June 8.—The North Deutscher steamer Wilhelm II., the outward bound steamer for New York, sprang a leak and sunk while lying alongside her wharf Saturday night. Attempts are now being made to get her off and although part of her cargo will undoubtedly be saved, it will all be more or less damaged by water.

**Italian Laborer Dies of Typhoid.**  
COLLEEN, O., June 8.—An Italian laborer, known as Joe Livingstone, employed on a Pan-handle freight train, fell off on Saturday afternoon. He was removed to St. Francis hospital, where it was stated that his injuries were slight, but he died Sunday morning, and the coroner will investigate.

**Horrible Cruelty to a Child.**  
CITY OF MEXICO, June 8.—A case of horrible cruelty to a child is being investigated by the authorities of the city. A woman named Anita Lopez was caught in the act of applying red hot irons to the body of her eight-year-old son and was arrested.

**Agled Sunday Opening.**  
OMAHA, Neb., June 8.—The Nebraska Epworth League closed its annual convention, after a well-attended session of three days. Before adjourning, it was passed, by a large vote, resolutions boycotting the World's fair if it will be opened on Sunday.

# THE RAIN

Kept Crowds Away From the World's Fair Sunday.

Less Than 60,000 People at the Second Sunday Exposition.

The Management Disappointed.—The visitors were nearly all working people living in Chicago—More Than Half From the West Than the East.

CHICAGO, June 5.—What the attendance at the World's fair might have been Sunday had it not rained, no one will ever know. But it rained, and it rained hard nearly all afternoon and Sunday night. The total number of paid admissions was less than sixty thousand. The second open Sunday of the fair dawned bright and clear, and it was uncomfortably warm. The railways, surface and elevated and the steamboat lines brought out their entire service in anticipation of an immense business, but they were disappointed. Up to 1 o'clock in the afternoon they did a fair business, and carried upwards of thirty-five thousand people to the "White City." About that hour an ugly, threatening black cloud arose in the west, and in less than an hour the rain was falling in torrents. To make matters worse the wind blew a perfect gale, and it thundered in a most uncomfortable manner. It was after 4 o'clock when the rain ceased and the sun came out again, but it was so late that the people did not come out in crowds, and late Sunday evening the bureau of admissions estimated the total paid attendance would be less than sixty thousand people.

The visitors who attended the fair Sunday were largely of the working class, and were inhabitants of Chicago. Thousands of laboring men were out with their families, and nearly all of them brought their lunch with them, and at noon the benches and seats scattered throughout the grounds reminded one of a basket picnic. An official connected with the bureau of admissions, in speaking of the character of the crowd, said that the out-of-town people had been coming to the fair all week, and were tired out Sunday and were taking a rest, so they were able to take a fresh start Monday. About the only people who came out Sunday were those who could not attend during the week.

Another thing that was noticeable, the pay shows on the Midway Plaisance were not well patronized, and the rolling chairs of laboring men were out. It was a crowd made up of people who had to work for a living and could afford few of the luxuries. The money-players were at home resting. The gamblers had little to do, and the electric launches less.

Nearly all the eastern states' buildings were closed to the public, while the majority of the buildings erected by the western and middle states were open.

According to the registers found in nearly every state building western people are coming to the World's fair in much greater numbers, as a general thing, than those living in the older eastern states.

Cattle Thieves Captured and Killed. CHICAGO, June 5.—The band of cattle thieves who attacked a train near Ogilvie and drove off a large portion of the stock have been captured and killed. The outlaws were bold in their operations and were making their way to the United States with their booty when a party of ranchmen overtook them and shot them down.

The thieves stood their ground and returned the fire. The battle lasted almost an hour. Three ranchmen and four of the thieves were killed. The remainder of the band attempted to escape, but were captured. The cattle were recovered.

Carnegie Enterprise Buils. KNOXVILLE, Tenn., June 5.—The Carnegie Land Co. and the Carnegie Iron Co. of Johnson City, on account of the financial situation and inability to make collections and lack of assistance of non-resident stockholders have been forced into a temporary assignment to protect the property of their creditors.

The financial pressure has been so great that the bonds of the companies could not be sold, and the amount due them could not be collected.

Stolen Child Recovered. MINNEAPOLIS, Minn., June 5.—Mamie Schwartz, the 5-year-old child of Valentine J. Schwartz, pressman at St. Paul German paper, who was abducted a year ago, has been recovered at West Superior, Wis. She was in the possession of a switchman, named Allard, who had received her from a family named Levine, at Duluth, with whom she was left by a woman who abducted her.

Family Poisoned. COLUMBIA, Mo., June 5.—A peculiar case of poisoning developed Sunday in the family of E. P. Wright, a soldier, living at 738 Hamlet street. Immediately after eating supper Saturday night Wright, his wife and two children became very ill, and were at the point of death Sunday. It is supposed that they were poisoned by eating canned corn.

To Reduce Freight Rates. NEW YORK, June 5.—The Southern Pacific Monday will meet the reduced freight rates of the Canada Pacific from New York to San Francisco. It was the cut under all classes where the Canadian Pacific quote rates of more than \$1 a hundred pounds. The Southern Pacific cut 10 per cent out over its rival.

Forced to Drink Acid. INDIANAPOLIS, June 5.—Wm. Moore was assaulted on the street near Sunday by two unknown men. While one of them held him, the other forced him to drink the contents of a bottle of carbolie acid. He is in a serious condition and may not recover. His assailants escaped.

## CARRIER PIGEONS.

Experiment to Be Made By the Government in Messages to the Navy.

PITTSBURGH, June 5.—The interest in pigeons as messengers bids fair to continue. On Monday the United States steamship Constellation in leaving Annapolis for the annual practice cruise will carry Annapolis, Washington and Richmond birds, which will be liberated down the bay, off the capes and at sea. Pigeons will be at Annapolis to carry forward the word brought to the naval flot. More important than the recovery is the decision of George W. Childs to fit up a loft with pigeons for messenger service in the Public Ledger building. Pigeons have been used successfully for ten years past, but always to a disadvantage, as the birds were borrowed and not only unused to the work, but returned to homes at a distance from the news center, and time was lost.

## TERRIBLE DISTRESS.

Five Thousand Arkansas People Made Homeless by a Cyclone.

LITTLE ROCK, Ark., June 5.—Great distress and suffering attend upon the people of Hope, Ark., and vicinity. The terrible cyclone of May 30 has left 50,000 people homeless and in destitute circumstances. The people of Hope, arrived here Sunday on a relief mission. He issued an address to the business men of St. Louis, Chicago, Little Rock and Memphis, asking for aid. As far as known three men were killed and about twenty injured.

## New Rifle for the Army.

WASHINGTON, June 5.—The ordnance department of the army is making preparations to begin the manufacture of the new rifle made at the Springfield armory immediately after the beginning of the new fiscal year. The rifle is of very small caliber, intended to use smokeless powder, and is a magazine arm. It is the model that within one year from July 1 next the total output of the armory will be about 13,000 rifles, which is made possible by the use of the most modern labor-saving machinery. This number of rifles will probably suffice to arm the entire infantry and artillery branches. The rifle for cavalry use has not yet been designed, but will be pushed forward as rapidly as possible.

## Italy's King Reviews His Troops.

ROME, June 5.—The king of Italy held a grand review of the troops in the Piazza Venezia at the capital Sunday, it being the anniversary of the proclamation of the constitution by Charles Albert, king of Sardinia, forty-five years ago. After the review his majesty presented to the troops the medals which have been awarded them for conspicuous bravery. Sunday evening, the principal streets of the city are brilliantly illuminated in honor of the event and great crowds of people are everywhere to be seen intent on viewing the decorations.

## Kansas Grasshoppers in This.

BRUCE, Mo., June 5.—Several specimens of the large Kansas grasshopper have been found in the country near Bruce, and the farmers are dreading an invasion from this pest. Quite a number of farmers report seeing large grasshoppers, but did not know what kind they were until C. Amiller, who owns and operates several farms in Kansas as well as Ohio, pronounced them the genuine hopper so much dreaded in Kansas. Specimens brought to this city were fully three inches long.

## Anniversary of Garibaldi's Death.

ROCK, June 5.—A largely attended affair was held here Sunday to observe the anniversary of the death of Garibaldi which occurred on June 2, 1882. It is estimated that considerably over 8,000 people took part in the ceremonial and at least fifty societies were represented by delegates. The bands which accompanied them played national airs which were received with enthusiasm.

## Result of the Walking Contest.

VIENNA, June 5.—The walking contest and race resulted in the victory of Elmsworth, who beat Florqua, a printer, who is described as from Saxony by three hours. This result is hailed with delight by the advocates of vegetarianism, who claim that a man can do a great deal of physical labor and with a minimum of sleep, if he will only follow their teachings.

## No More Obstacles for Obolons.

WASHINGTON, June 5.—The list of job appointments in Washington has attained such respectable proportions that it has been practically agreed to further appointments from that state will be made. Cincinnati democrats on congressional nominees having the best chance at the place which they improved to the fullest extent.

## Cleveland at Home.

WASHINGTON, June 5.—President Cleveland returned from his fishing trip to Hog Island Sunday morning, resuming his duties at 10 o'clock. He has been practically agreed to further appointments from that state will be made. Cincinnati democrats on congressional nominees having the best chance at the place which they improved to the fullest extent.

## He Was There.

PAULINO, O., June 5.—Cashier Springer of the Potter's bank, which assigned Friday, denies the statement that he left town or could not be found. He says that he was at home at the time of the assignment by President Ayres, and has ever since been there answering calls.

## Columbian Immigrants Opportunity.

PANAMA, June 5.—The Columbian Immigration commission is preparing to send representatives to New York for the purpose of inducing immigrants who land there to come to this country. Since Harardo, Columbian minister at Washington, has been ordered to proceed to Rome.

## CHICAGO READY FOR HER.

The Infants Take Her First Trip at the Big Show.

CHICAGO, June 5.—Every thing is in readiness at the Palmer house for the reception of the Princess Enlaile and her suite. According to the original program the princess should have reached Chicago a week ago, but the New York festivities necessitated a change in the arrangements and her abiding place was changed from the Auditorium hotel, where the duke of Veragua and his suite have been stopping, to the Palmer house. Here eleven rooms have been set apart for the distinguished visitor and her retinue. They are finished in green and gold, decorated with flags and flowers. The sleeping chamber is the one that has been occupied at different times by the late Emperor Dom Pedro, President Cleveland, Gen. Grant, Princess Louise, Lady Aberdeen and other distinguished people of all countries. The corridor leading to the suite will be guarded by officers of the New Spanish army and the princess will be enabled to promenade, eat and sleep as much as she pleases without exposing herself to the gaze of the vulgar herd when she is not so inclined.

The gold pass to Jackson park, which is to be presented to the princess by the city, was finished by the engravers Saturday morning. Upon her arrival the depot will be guarded by a platoon of men from the local militia. The carriage will be drawn by four white horses, and a company of mounted police, led by twelve trumpeters, will draw the way to the hotel. No one will be permitted to see her. Invitations for social events except through Mayor Harrison.

## THE G. A. R.

Realize the Importance of the Pension Fraud Question.

Lafayette Post Joins Farnham in Agitation of Reform.

They Pass Resolutions Insisting on a Thorough Investigation of the Matter.

NEW YORK, June 5.—The submission to the Lafayette post G. A. R., of a series of resolutions passed by the Farnham post touching the pension fraud question, led to the appointment on March 17 of a committee of fifteen members to consider the subject of pensions.

On April 22 at a final meeting of a sub-committee appointed to prepare resolutions, the following which were the first time made public, were adopted:

Resolved, That this post disavows and repudiates all pension frauds and all pensioners who are engaged in the prosecution or advancement of such claims as reflecting upon the honor, integrity, and patriotic aims of the organization.

Resolved, That it is the opinion of this post that the pension law is being used as a tool to defraud the government and to defraud the honest pensioner.

Resolved, That it is the opinion of this post that the pension law is being used as a tool to defraud the government and to defraud the honest pensioner.
